Helping Achieve Your Mission!

BIK & CO, LLP has an excellent service support group for not-for-profit organizations. As your auditor, accountant, or advisor, we assess your operating environment, interpret new regulations, oversee or conduct accounting, perform audits, prepare tax returns, and manage compliance. Our role varies with each client depending on what they need and the tasks they are asking us to do for them.

Our firm provides audit, tax, and advisory services to over 50 not-for-profit organizations. Some of our clients require less complex, compliance-oriented service, while others need assistance with challenging projects or unique situations that arise. With BIK, you not only get an accountant capable of providing financial reporting and tax filings, you retain an advisor capable of providing fresh ideas.

BIK can develop an engaging set of financial reports that accurately tell your story to best reflect the success of your mission. This will make your organization look as attractive as possible to potential donors and for grant applications. Many of our staff have personal experience in leadership or board positions with a variety of not-for-profit organizations. This enables us to bring practical advice and helps you tackle the critical issues you face.

Donors want to support successful entities. Our mission is to clearly present your goals, challenges and success and provide financial and operational guidance. At BIK we seek long-term relationships to better understand our clients' needs.
